Dunbartonshire and Argyll & Bute Valuation Joint Board Complaints Handling Procedure

Part 4: Governance

<i>Version</i>	<i>Description</i>	<i>Date</i>
0.1	Draft for MTM approval	15/1/2021
1.0	For VJB Meeting 5/3/2021	11/2/2021
1.1	Board Approved	5/3/2021

Contents

Roles and responsibilities	3
Recording, reporting, learning from and publicising complaints.....	5
Recording complaints	5
Learning from complaints	5
Reporting of complaints	6
Publicising complaints information	6

Roles and responsibilities

1. All staff will be aware of:
 - the Complaints Handling Procedure (CHP)
 - how to handle and record complaints at the frontline response stage
 - who they can refer a complaint to, in case they are not able to handle the matter
 - the need to try and resolve complaints early and as close to the point of service delivery as possible; and
 - their clear authority to attempt to resolve any complaints they may be called upon to deal with.
2. Training on this procedure will be part of the induction process for all new staff. Refresher training will be provided for current staff on a regular basis.
3. Senior management will ensure that:
 - The Joint Board's final position on a complaint investigation is signed off by an appropriate manager or officer in order to provide assurance that this is the definitive response and that the complainant's concerns have been taken seriously
 - it maintains overall responsibility and accountability for the management and governance of complaints handling (including complaints about contracted services)
 - it has an active role in, and understanding of, the CHP (although not necessarily involved in the decision-making process of complaint handling)
 - mechanisms are in place to ensure a consistent approach to the way complaints handling information is managed, monitored, reviewed and reported at all levels in the Joint Board and
 - complaints information is used to improve services, and this is evident from regular publications.
4. **Assessor & ERO:** The Assessor and ERO provides leadership and direction in ways that guide and enable us to perform effectively across all services. This includes ensuring that there is an effective complaints handling procedure, with a robust investigation process that demonstrates how we learn from the complaints we receive
5. The Assessor & ERO (or Depute Assessor & ERO in the case of absence) will take a personal interest in all complaints, though he may delegate responsibility for the complaint handling procedure to senior staff. Regular management reports assure the Assessor & ERO of complaints performance
6. The Assessor & ERO's role will also include providing complaints information in an orderly, structured way within requested timescales, providing comments on factual accuracy on our behalf in response to SPSO requests and/or reports, and confirming and verifying that recommendations have been implemented.
7. **Management Team:** On the Assessor & ERO's behalf, the management team will be responsible for:
 - managing complaints and the way we learn from them
 - overseeing the implementation of actions required as a result of a complaint

-
- investigating complaints; and
 - deputising for the Assessor & ERO on occasion.
8. They will be responsible for preparing and signing off decisions for customers, so they should be satisfied that the investigation is complete and their response addresses all aspects of the complaint. However, the management team may decide to delegate some elements of complaints handling (such as investigations and the drafting of response letters) to other members of staff. Where this happens, the management team member should retain ownership and accountability for the management and reporting of complaints.
9. **Complaints investigator:** The complaints investigator is responsible and accountable for the management of the investigation. They will be involved in the investigation and in coordinating all aspects of the response to the customer. This may include preparing a comprehensive written report, including details of any procedural changes in service delivery and identifying wider opportunities for learning across the organisation.

Recording, reporting, learning from and publicising complaints

10. Complaints provide valuable customer feedback. One of the aims of the CHP is to identify opportunities to improve services across DABVJB. By recording and analysing complaints data, we can identify and address the causes of complaints and, where appropriate, identify training opportunities and introduce service improvements.
11. We also have arrangements in place to ensure complaints about contractors are recorded, reported on and publicised in line with this CHP.

Recording complaints

12. It is important to record suitable data to enable us to fully investigate and respond to the complaint, as well as using our complaint information to track themes and trends. As a minimum, we should record:
 - the customer's name and contact details
 - the date the complaint was received
 - the nature of the complaint
 - the service the complaint refers to
 - staff member responsible for handling the complaint
 - action taken and outcome at frontline response stage
 - date the complaint was closed at the frontline response stage
 - date the investigation stage was initiated (if applicable)
 - action taken and outcome at investigation stage (if applicable)
 - date the complaint was closed at the investigation stage (if applicable); and
 - the underlying cause of the complaint and any remedial action taken.
 - the outcome of the SPSO's investigation (where applicable).
13. If the customer does not want to provide any of this information, we will reassure them that it will be managed appropriately, and record what we can.
14. Individual complaint files will be kept in line with our document retention policy.

Learning from complaints

15. We must have clear systems in place to act on issues identified in complaints. As a minimum, we must:
 - seek to identify the root cause of complaints
 - take action to reduce the risk of recurrence; and
 - systematically review complaints performance reports to improve service delivery.
16. Learning may be identified from individual complaints (regardless of whether the complaint is upheld or not) and from analysis of complaints data.

17. Where we have identified the need for service improvement in response to an individual complaint, we will take appropriate action. This should include;

- the action needed to improve services must be authorised by an appropriate manager
- an officer (or team) should be designated the 'owner' of the issue, with responsibility for ensuring the action is taken
- a target date must be set for the action to be taken
- the designated individual must follow up to ensure that the action is taken within the agreed timescale
- where appropriate, performance in the service area should be monitored to ensure that the issue has been resolved; and
- any learning points should be shared with relevant staff.

18. SPSO has guidance on **Learning from complaints**.

19. Senior management will review the information reported on complaints regularly to ensure that any trends or wider issues which may not be obvious from individual complaints are quickly identified and addressed. Where we identify the need for service improvement, we will take appropriate action (as set out above). Where appropriate, performance in the service area should be monitored to ensure that the issue has been resolved.

Reporting of complaints

20. We have a process for the internal reporting of complaints information, including analysis of complaints trends. Regularly reporting the analysis of complaints information helps to inform management of where services need to improve.

21. We will report at least **quarterly** to the management team on:

- performance statistics, in line with the complaints performance indicators published by SPSO
- analysis of the trends and outcomes of complaints (this should include highlighting where there are areas where few or no complaints are received, which may indicate either good practice or that there are barriers to complaining in that area).

Publicising complaints information

22. We publish on a **quarterly** basis information on complaints outcomes and actions taken to improve services

23. This demonstrates the improvements resulting from complaints and shows that complaints can help to improve our services. It also helps ensure transparency in our complaints handling service and will help to show our customers that we value their complaints.

24. We will publish an **annual** complaints performance report on our website in line with SPSO requirements, and provide this to the SPSO on request. This summarises and builds on the quarterly reports we have produced about our services. It includes:

- performance statistics, in line with the complaints performance indicators published by the SPSO; and

-
- complaint trends and the actions that have been or will be taken to improve services as a result.

25. These reports must be easily accessible to members of the public and available in alternative formats as requested.
